

INSTRUCTIONS

- 1: PRINT OUT ON CARDSTOCK. ANY SORT OF PRINT SHOP OUGHT TO HAVE SOMETHING DURABLE ENOUGH.
- 2: LAMINATE YOUR PIECES.
- 2: CUT OUT THE CENTER OF THE TOP, THEN CUT OUT EACH PIECE. THE IDEA HERE IS THAT THE PUPIL OF THE EYE IN THE FUTURE SIGHT LOGO WILL HIGHLIGHT THE POWER/TOUGHNESS OF YOUR 'GOYE
- 3: GLUE THE MIDDLE SIDES TO THE BOTTOM. MAKE SURE THE SLIDER FITS BETWEEN THEM, BECAUSE THOSE ARE THE "RAIIS" OF THE SLIDER. YOU MAY WANT TO SCUFF UP THE "RAIIS" AND THE PLACE THEY ATTACH TO SO THE GLUE STICKS A BIT BETTER.
- 4: GLUE TOP TO THE BOTTOM SIDES. AGAIN, YOU MAY WANT TO SCUFF THEM AND THE SPOTS ON THE TOP THAT ARE GOING TO NEED TO HOLD GLUE.
- 5: INSERT SLIDER
- 6: GIVE AWAY YOUR EXTRA!

ONCE IT'S ALL PUT TOGETHER, IT SHOULD FIT COMFORTABLY IN A STANDARD DECKBOX.
